CIX Summer School

Uni Saarland 13 June 2022

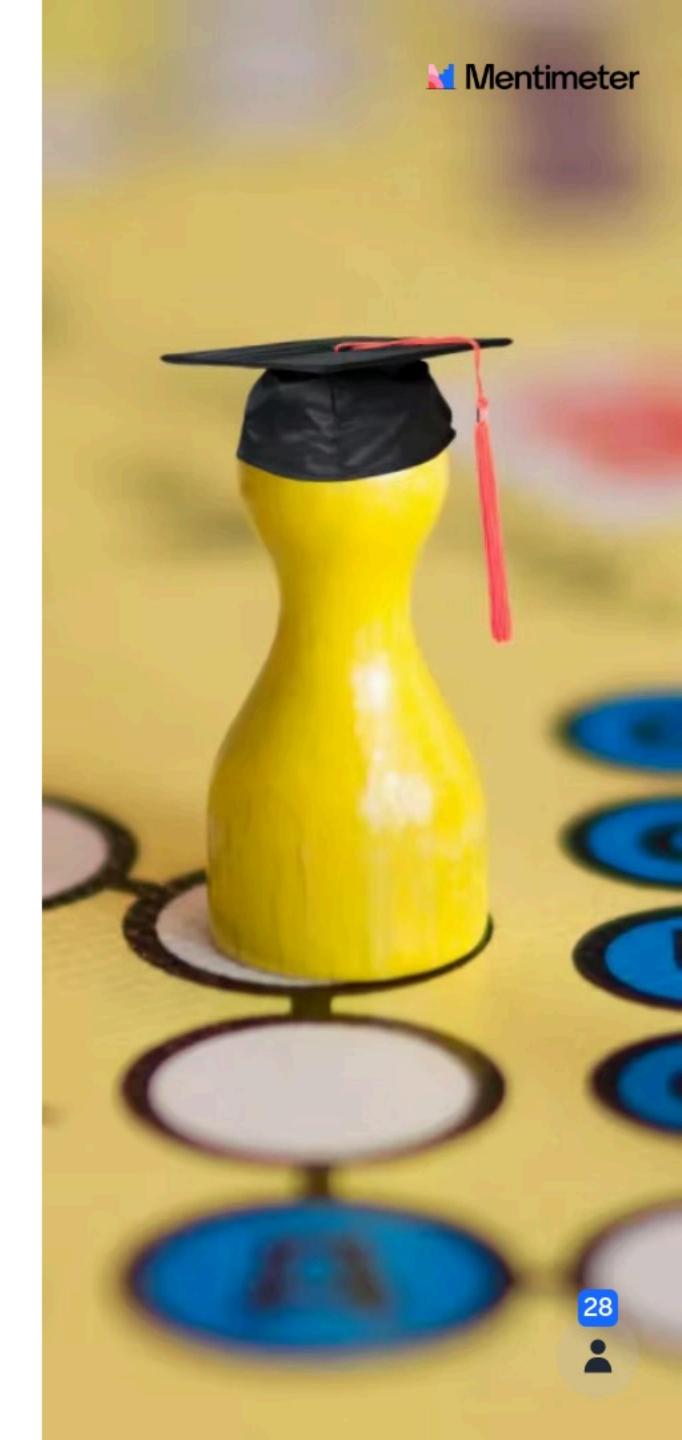

Where are you career-wise?

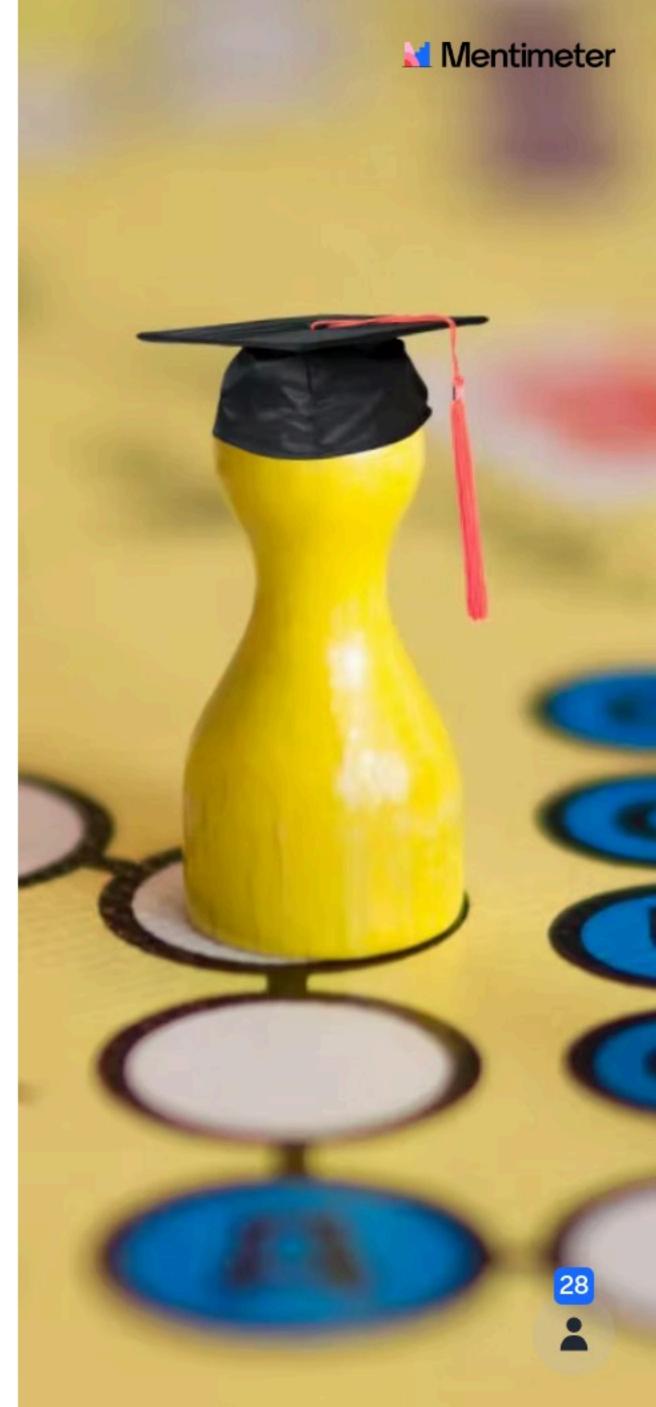

Why did you want to do a PhD?

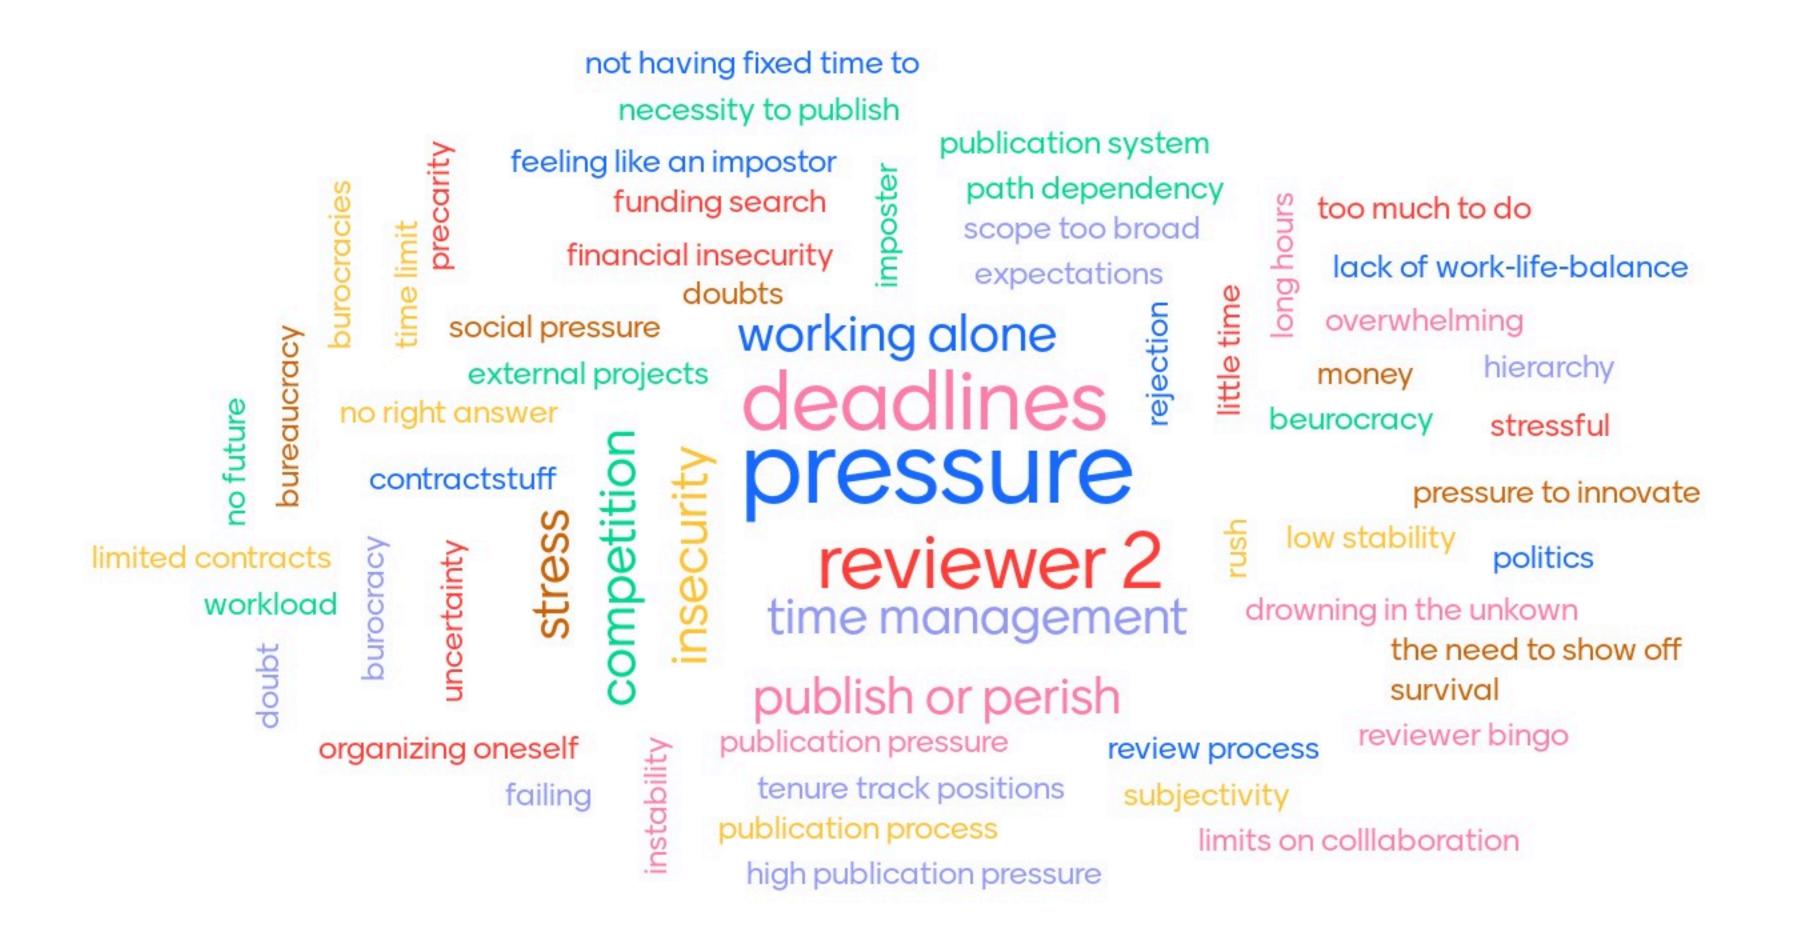

What do you love?

Don't love? Challenges?

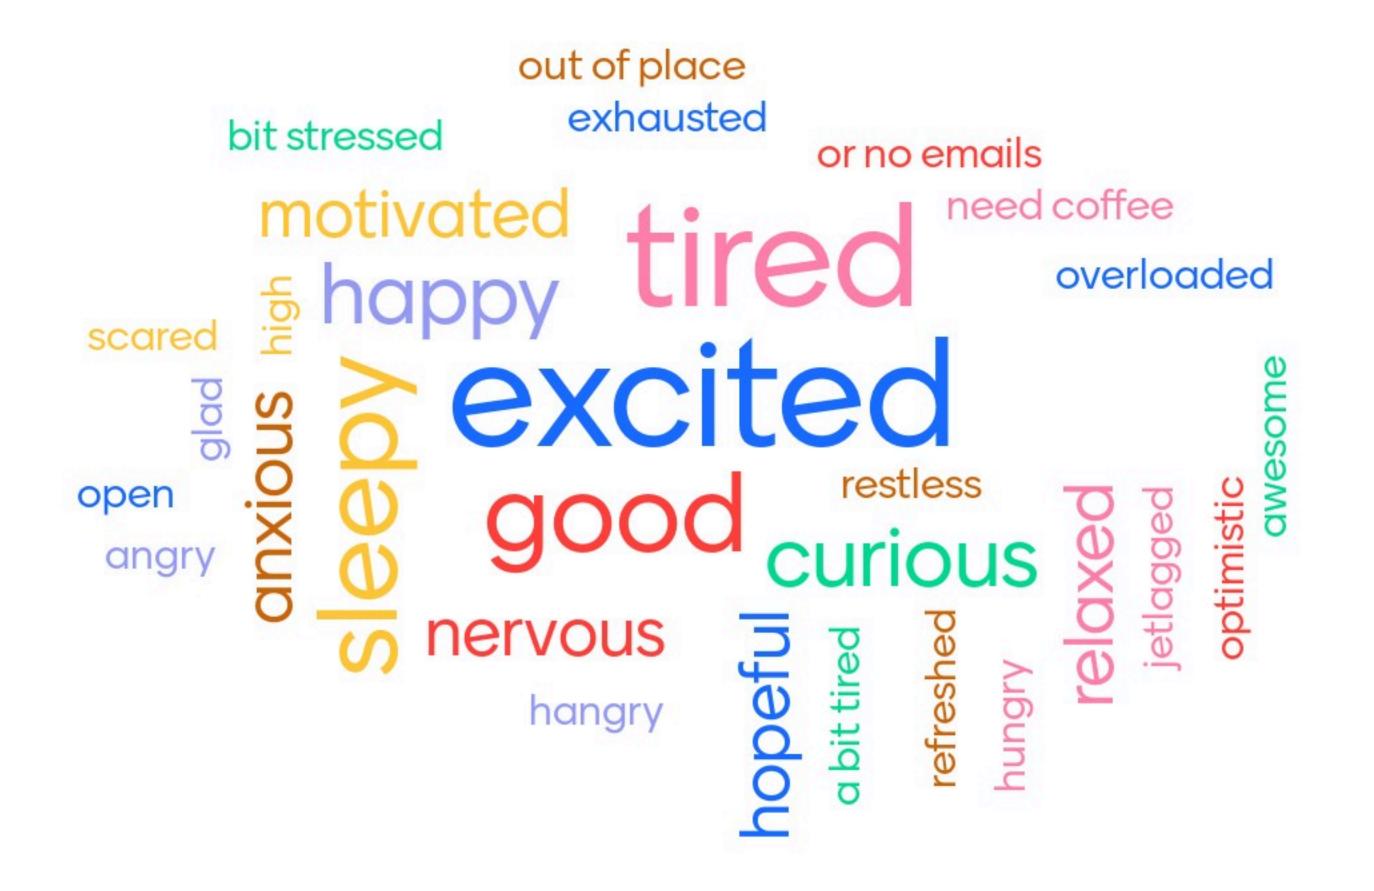

Rate yourself wrt your PhD journey...

don't really know what I'm doing right now Strongly disagree Strongly agree Everyone else seems to have it more together I am confident I can work it all out I have high standards for myself

Word describing how I am feeling this morning

Mentimeter

Open questions?

How not to be my worst critic?

What value should we pursue as academics?

Can I do it all? Fulfillment in career + hobbies + relationships (partner, family, friends) + ...?

How to handle the lack of organization of others (collegues or people that you are dependent on), so that it does not affect my mental heath too much?

time and processes management in research

How to decide whether to stay in academia or not after the Ph.D.?

how to find people to cooperate with?

I will cooperate with you:)

How do I decide if pursuing PhD is worth my years?

Open questions?

How to deal with precarious work situation? (short-term contracts etc.)

How to maintain a good work-life-balance with pressing deadlines?

Is there a rule of thumb on how to cope with high publication pressure?

How to say 'no' more often

What do I need to do/ have on my CV to stand out?

how to fight the fear of my research being useless or even harmful

What do you wish you'd known about Ph.D. life before starting one?

How to manage the precarity of academic life with my personal relationships and life?
